The treasurer reported that the contingency reserve fund balance was \$266,258 at the end of the previous month. Operating fund balance was \$59,258. Accounts receivable stood at \$2,698.

4. Roof condition assessment

The roof condition assessment dated 22 August 2025 was received. The consultant's opinion is that the two-ply SBS membrane installed in 2009 is at the end of its serviceable life, with widespread seam failure and blistering across the main roof and penthouse roof. The consultant recommends full replacement within 12 to 18 months rather than continued patching. Council resolved to obtain three quotes for full membrane replacement and to report to the owners at the AGM.

5. Amenity room

The amenity room booking fee remains \$75 with a \$300 damage deposit. The room was booked four times during the month. Council approved replacement of the dishwasher in the amenity kitchen at a cost of \$1,140 from the operating fund.

6. Lobby and common areas

The lobby carpet cleaning was completed. A cracked tile near the mail room will be replaced. Council approved a quote of \$960 for repainting the second floor corridor where scuffing had become noticeable.

7. Property manager's report

The property manager reviewed the monthly financial package. Operating expenses are tracking to budget with the exception of repairs and maintenance, which is running slightly ahead owing to plumbing call-outs. There are three owners in arrears totalling less than one month of fees between them; the standard reminder letters have been sent.

8. Landscaping

The landscaping contractor has completed the fall clean-up of the courtyard planters. Council asked the property manager to obtain a quote for replacing the dead cedars along the Springer Avenue frontage. The lawn irrigation timer has been adjusted for the season.

9. Elevators

The elevator maintenance contractor reported that both cars passed their annual inspection. A door operator on car two was replaced under the maintenance contract at no additional cost. Council asked that the entrapment log be circulated with the next report.

10. Mechanical

The boiler service was completed. One circulation pump is showing bearing wear and will be replaced from the operating budget at an estimated cost of \$3,800. Domestic hot water temperatures were verified at the recirculation return.

11. Next meeting and adjournment

The next council meeting will be held on 8 October 2025. There being no further business the meeting adjourned at 8:35 pm.

These minutes are subject to approval at the next meeting of the strata council.

7. Fobs and access

Twelve replacement fobs were issued during the month. Council reminded owners that fobs are \$45 each and must be requested through the property manager. The parkade gate sensor was recalibrated after an owner reported it closing on a vehicle.

8. Parkade

The annual parkade pressure wash is scheduled for the spring. Two light fixtures in the P2 level were replaced with LED units. Council discussed line painting and asked for a quote.

9. Garbage and recycling

The waste hauler has advised of a 4% increase effective next month. Council asked the property manager to survey two alternative haulers before the next meeting. Owners are reminded that

cardboard must be flattened.

10. Lobby and common areas

The lobby carpet cleaning was completed. A cracked tile near the mail room will be replaced. Council approved a quote of \$960 for repainting the second floor corridor where scuffing had become noticeable.

3. Financial report

The treasurer reported that the contingency reserve fund balance was \$270,560 at the end of the previous month. Operating fund balance was \$55,058. Accounts receivable stood at \$1,175.

4. Roof replacement quotes

Two quotes for full roof membrane replacement have been received: Pacific Roofing at \$780,000 and Westcoast Membrane Systems at \$940,000, both plus GST. A third quote from Summit Roofing is expected in the new year. The property manager confirmed that the contingency reserve fund, at approximately \$290,000, cannot fund the work and that a special levy would be required for the balance. Council discussed whether to bring a levy resolution to a special general meeting or to the 2026 AGM. No decision was made pending the third quote. Owners are advised that a special levy is likely to be proposed in 2026.

5. Mechanical

The boiler service was completed. One circulation pump is showing bearing wear and will be replaced from the operating budget at an estimated cost of \$3,800. Domestic hot water temperatures were verified at the recirculation return.

4. Rental bylaw inquiry

An owner wrote asking whether the rental restriction in bylaw 41 is still enforceable following the provincial changes in November 2022. Council noted that the consolidated bylaws still contain section 41 limiting rentals to 20 strata lots. The property manager will ask the strata's lawyer for an opinion and council will consider whether to bring a bylaw amendment to the AGM.

5. Fobs and access

The treasurer reported that the contingency reserve fund balance was \$286,141 at the end of the previous month. Operating fund balance was \$56,070. Accounts receivable stood at \$1,895.

4. Roof replacement, decision deferred

The third quote, from Summit Roofing at \$850,000 plus GST, was received and reviewed together with the earlier quotes of \$780,000 and \$940,000. All three are for full replacement of the main and penthouse roof membranes with a two-ply SBS system and a 20-year manufacturer's warranty. Council discussed funding. The contingency reserve fund stands at \$298,412 as at 31 December 2025 and cannot fund the work. After discussion, council resolved to defer the decision to the annual general meeting in October 2026, at which a special levy resolution will be put to the owners. Motion by M. Trent, seconded by R. Ilic, to defer. CARRIED, one opposed. Council asked the property manager to prepare a levy schedule by unit entitlement for the AGM notice package.

STRATA PLAN BCS3392, The Springer

MINUTES OF THE ANNUAL GENERAL MEETING

Held on 21 October 2025 at 7:00 pm in the amenity room, 2135 Springer Avenue, Burnaby, BC.

Registration confirmed 61 strata lots represented in person and 23 by proxy, for a total of 84 of 118 eligible votes. A quorum was declared present. D. Fraser of Pacific Quorum Properties chaired the meeting at the request of council.

1. Call to order and proof of notice

The meeting was called to order at 7:06 pm. The notice of meeting dated 26 September 2025 was confirmed to have been delivered in accordance with the Strata Property Act.

2. Approval of the 2024 AGM minutes

Moved, seconded and CARRIED that the minutes of the annual general meeting held 22 October 2024 be approved as circulated.

3. Council report

The president reported on the year. The main item is the roof. A roof condition assessment received in September concluded that the membrane is at the end of its life and council is obtaining quotes for full replacement. Preliminary pricing suggests the cost will be in the range of \$800,000 to \$950,000. The contingency reserve fund cannot fund work of this size and owners should expect a special levy resolution to be brought to a general meeting in 2026 once council has three quotes. The president also reported that the depreciation report dated June 2022 will be due for its three-year update and council will budget for it in the coming year.

4. Financial statements

The treasurer presented the audited financial statements for the fiscal year ended 31 December 2024. The contingency reserve fund balance at year end was \$237,600. Moved, seconded and CARRIED that the financial statements be received.

5. Budget for fiscal 2026

The proposed operating budget of \$1,146,000 was presented, an increase of 6.8% over the prior year driven by insurance and utilities. The budget includes a contribution to the contingency reserve fund of \$61,000, unchanged from the prior year. An owner asked why the contribution was not increased given the depreciation report recommendation of a materially higher reserve balance; the treasurer replied that council had chosen to hold fees and address the roof by levy. Moved by the owner of SL 44, seconded by the owner of SL 97, that the budget be approved as presented. CARRIED by majority vote, 71 in favour, 13 opposed.

6. Depreciation report

An owner asked whether the depreciation report would be updated before the roof decision. Council replied that the report from June 2022 already identifies the roof for replacement in 2027 at an estimated \$820,000 in 2022 dollars, and that the update will be commissioned in 2026.

7. Election of council

The following owners were elected by acclamation to council for the coming year: K. Sandhu, M. Trent, R. Ilic, A. Okafor, J. Lindqvist.

8. Insurance

The property manager advised that the insurance renewal in December is expected to bring a further premium increase and that the insurer has signalled a higher water damage deductible. Details will be circulated after renewal.

9. Termination

There being no further business the meeting terminated at 8:41 pm.

DEPRECIATION REPORT

Strata Plan BCS3392, The Springer

2135 Springer Avenue, Burnaby, BC

Prepared for The Owners, Strata Plan BCS3392 by Halsall Reserve Consultants Ltd.

Report date: 15 June 2022. Financial information current to 31 December 2021.

This depreciation report has been prepared in accordance with section 94 of the Strata Property Act and the Strata Property Regulation. It includes a physical component inventory, an assessment of remaining useful life, and three funding models for the contingency reserve fund.

1. Executive summary

The building is a 22-storey concrete high-rise completed in 2009 with 118 residential strata lots, a two-level underground parkade, and a total unit entitlement of 10,000. The building is generally in fair to good condition for its age. The principal near-term expenditure is the roof membrane, which is approaching the end of its useful life, followed by the parkade membrane, domestic water piping and elevator modernisation within the 30-year study period.

The contingency reserve fund balance at 31 December 2021 was \$210,400. The annual contribution is \$61,000. Under all three funding models this contribution is insufficient to meet the projected expenditures, and the report recommends that the strata corporation move toward a target balance of \$1,420,000 by fiscal 2027 to fund the roof and parkade membrane work without special levies. Achieving that balance would require annual contributions of approximately \$240,000 from 2023. Where the strata elects not to increase contributions, the shortfall will need to be funded by special levy at the time of each project.

2. Building description

Year of construction: 2009. Construction: cast-in-place reinforced concrete, with window wall and curtain wall glazing systems, metal panel cladding at the podium, and a two-ply SBS modified bitumen roofing membrane on the main roof and penthouse roof. Strata lots: 118 residential. Parking: 141 stalls across two underground levels, the majority designated limited common property. Storage: 96 lockers on P1, common property allocated by council.

3. Methodology

A visual site review was conducted on 3 and 4 May 2022. Component quantities were taken from the architectural drawings and verified on site. Remaining useful life estimates reflect observed condition. Cost estimates are in 2022 dollars and are escalated in the funding models at 3% per year.

4. Component inventory and condition (selected)

Component	Installed	Typical life	Remaining life	Est. cost (2022)
Roof membrane, main and penthouse (SBS)	2009	20 yrs	5 yrs (2027)	\$820,000
Parkade traffic membrane	2009	15 yrs	3 yrs (2025)	\$410,000
Building envelope sealants	2009	12 yrs	0 yrs (overdue)	\$380,000
Domestic water piping	2009	30 yrs	17 yrs	\$1,150,000
Elevators, modernisation (2)	2009	25 yrs	12 yrs	\$640,000
Boilers and DHW	2009	20 yrs	7 yrs	\$190,000
Corridor finishes	2016	12 yrs	6 yrs	\$260,000

Roof membrane. The two-ply SBS membrane shows blistering, seam separation and ponding at the main roof drains. The mechanical penthouse roof has been patched repeatedly. Full replacement is recommended in 2027 at an estimated \$820,000 in 2022 dollars; escalated to 2027 this is approximately \$950,000.

Building envelope sealants. Perimeter sealants at window wall and cladding joints are beyond their service life and were identified for remediation in the 2019 building envelope condition assessment by Morrison Hershfield. We understand that work has not yet been carried out. The estimate above is carried from that assessment.

5. Contingency reserve fund analysis

Opening balance (31 December 2021): \$210,400. Current annual contribution: \$61,000. Projected expenditures in the first five years of the study period total \$1,610,000, dominated by the roof membrane, parkade membrane and envelope sealant work.

Recommended contingency reserve fund balance: \$1,420,000 by fiscal 2027. This is the balance required to fund the 2025 to 2027 projects from reserves. Model 1 (current contributions) reaches \$530,000 by 2027 and relies on special levies of approximately \$1,100,000 in aggregate. Model 2 (recommended) increases contributions to \$240,000 per year from 2023 and avoids levies for the first ten years. Model 3 phases the increase over three years and requires a single levy of about \$480,000 in 2027.

Unit entitlement. Special levies and contributions are apportioned by unit entitlement. The total unit entitlement for the strata plan is 10,000.

6. Funding model tables

Model 1, current contributions: year-end balances 2022 \$271,000; 2023 \$333,000; 2024 \$396,000; 2025 \$460,000 (before parkade); 2026 \$525,000; 2027 \$590,000 (before roof).

Model 2, recommended: year-end balances 2022 \$450,000; 2023 \$690,000; 2024 \$930,000; 2025 \$1,170,000; 2026 \$1,420,000.

Model 3, phased: contributions \$120,000 in 2023, \$180,000 in 2024, \$240,000 from 2025.

7. Limitations

This report is based on a visual review and the documents provided by the strata corporation. It is not a building envelope condition assessment and does not include destructive testing. Cost estimates are opinions of probable cost and should be confirmed by tender. The report should be updated at least every three years as required by the regulation in force at the time of writing.

BUILDING ENVELOPE CONDITION ASSESSMENT

Strata Plan BCS3392, The Springer, 2135 Springer Avenue, Burnaby, BC

Prepared by Morrison Hershfield Limited for The Owners, Strata Plan BCS3392. Report date: 10 May 2019. Project no. 1902244.

1. Introduction

We were retained to carry out a visual and exploratory condition assessment of the building envelope following reports of water ingress at suites on the north elevation in the winter of 2018-19. The assessment included a visual review from grade, from the roof and from swing stage at four drops, and exploratory openings at three locations.

2. Observations

Window wall system. The window wall assemblies are generally performing. Perimeter sealant joints between the window wall frames and adjacent cladding show widespread adhesive failure on the north and west elevations, with sealant debonded from the substrate at an estimated 40% of joint length reviewed. Sealant on the south and east elevations is in fair condition.

Metal panel cladding, podium. Sealant at panel joints is cracked and debonded at several locations. Moisture was detected behind the panels at one exploratory opening on the west elevation.

Water ingress. The reported water ingress at suites 402, 702 and 1102 (north elevation) is consistent with sealant failure at the window wall perimeter above each location. Staining was observed on interior finishes at each suite.

3. Conclusions

The building envelope is at the stage where perimeter sealants have reached the end of their service life on the exposed elevations. Continued deterioration will increase the frequency of water ingress into suites and risks concealed damage to the cladding backup.

4. Recommendations

We recommend a full sealant replacement program on the north and west elevations, and targeted replacement on the south and east elevations, together with repairs to the podium cladding joints. This work should be carried out within five years of this report, that is by 2024, to limit consequential damage. Our opinion of probable cost for the recommended remediation is \$340,000 to \$420,000 including access, contingency and consulting fees, excluding GST.

We further recommend that the strata corporation carry out an interim targeted sealant repair at suites 402, 702 and 1102 within the next twelve months, and that the recommended program be incorporated into the depreciation report.

5. Limitations

This assessment is based on visual observation and a limited number of exploratory openings. Concealed conditions may differ. This report is for the use of the strata corporation and should not be relied on by third parties without our written consent.

THE OWNERS, STRATA PLAN BCS3392

CONSOLIDATED BYLAWS

Consolidated for convenience of reference to include all amendments filed at the Land Title Office to 31 March 2024. In case of discrepancy the filed bylaws prevail. These bylaws replace the Standard Bylaws under the Strata Property Act except where stated.

Division 1, Duties of owners, tenants, occupants and visitors

1. An owner must pay strata fees on or before the first day of the month to which the strata fees relate.
3. An owner, tenant, occupant or visitor must not use a strata lot, the common property or common assets in a way that causes a nuisance or hazard to another person, causes unreasonable noise, or is contrary to a purpose for which the strata lot or common property is intended.

Division 2, Pets and occupancy

15. An owner, tenant or occupant must not keep any pets on a strata lot other than one or more of the following: a reasonable number of fish or other small aquarium animals; up to two caged birds; up to two dogs or two cats, or one of each, each not exceeding 20 kg at maturity. Dogs must be leashed on common property.

16. There is no restriction on the age of occupants of a strata lot.

Division 3, Insurance

34. An owner is responsible for and must indemnify the strata corporation for the deductible portion of any insurance claim under the strata corporation's policy where the loss or damage originated in the owner's strata lot, whether or not the owner was negligent, to the extent permitted by the Strata Property Act. The strata corporation may recover the deductible as a charge against the strata lot.

Division 4, Rentals and short-term accommodation

41. Rental restriction. The number of residential strata lots that may be rented at any one time is limited to 20. An owner wishing to rent a strata lot must apply to council and, where the limit has been reached, will be placed on a waiting list in order of application. This bylaw does not apply to a family member as defined in the Strata Property Regulation. [Note: this bylaw has not been amended since the Strata Property Act was amended on 24 November 2022. Council is obtaining legal advice on its effect.]

42. Short-term accommodation. An owner, tenant or occupant must not use a strata lot, or permit a strata lot to be used, for short-term accommodation, being accommodation for a period of less than 30 consecutive days, including through any online platform. A fine of \$1,000 per day may be levied for a contravention of this bylaw.

Division 5, Parking and storage

27. Storage lockers are common property and are allocated to strata lots by council. Council may reallocate a locker on 30 days' notice. Parking stalls designated as limited common property on the strata plan are for the exclusive use of the strata lot to which they are designated. Visitor stalls may not be used by residents.

Division 6, Fines and enforcement

30. The strata corporation may fine an owner or tenant a maximum of \$200 for each contravention of a bylaw and \$50 for each contravention of a rule, except as otherwise provided in these bylaws. Continuing contraventions may be fined every seven days.
